

# PROSPECTUS

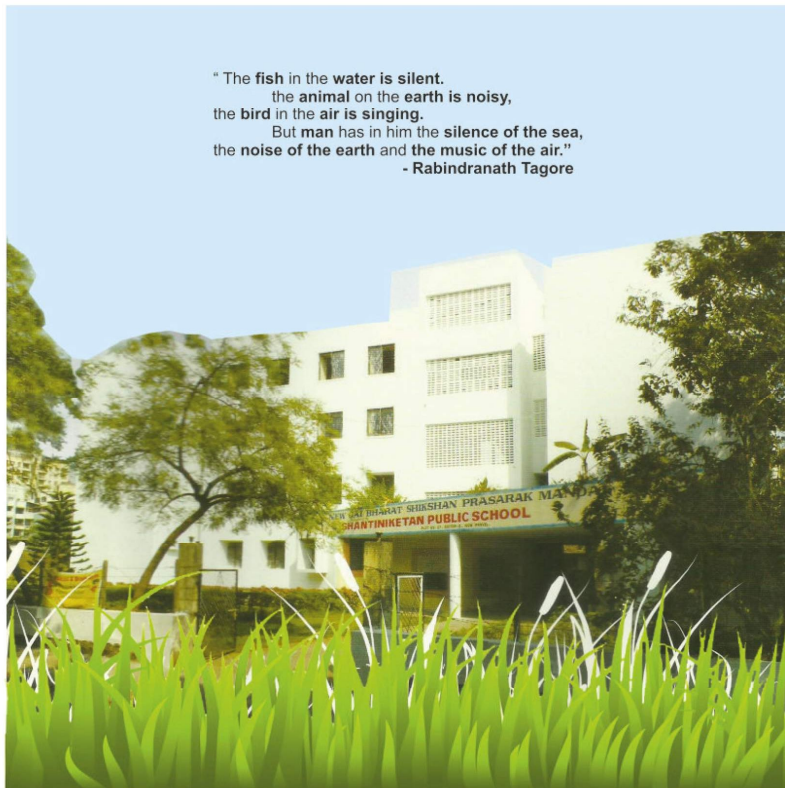

TODAY'S CHILDREN  
WILL CREATE TOMORROW'S WORLD

A UNIVERSE OF OPPORTUNITY

**NJBSPM'S**  
**Shantiniketan Public School**  
CBSE

" The fish in the water is silent.  
the animal on the earth is noisy,  
the bird in the air is singing.  
But man has in him the silence of the sea,  
the noise of the earth and the music of the air."  
- Rabindranath Tagore

**EMPHASIS ON:**

- Physical training
- Indoor and Outdoor Sports activities
- Creating all rounders
- Future world citizens.

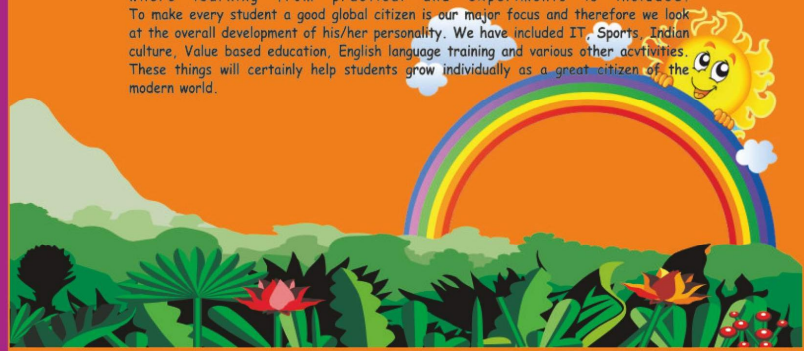

A survey shows that India is going to be the youngest country in the world in the near future. And who are going to be the Citizen then? Your own children..... They will lead this country and bring prosperity for which India was once known for.

This will be possible only when they are nurtured carefully. They should be trained in such a way that they could be capable of handling the responsibility.

#### INTRODUCING SHANTINIKETAN PUBLIC SCHOOL

Shantiniketan tries to break the stereotype of schooling by creating a different yet conducive atmosphere for the children. Being inspired by the 'open-to-sky schooling' concept of the great Noble Laureate Rabindranath Tagore, Shantiniketan is housed in a peaceful environment at New Panvel. It takes a different and unique approach of education as it tries to combine the best of all schooling boards. In this competitive age, students are forced to attend different classes. They can't bear this burden of extra studies. Here at Shantiniketan our endeavor will be to emphasize on 'enjoyable learning'. Our study pattern is based on interactive learning where learning from practical and experiments is included. To make every student a good global citizen is our major focus and therefore we look at the overall development of his/her personality. We have included IT, Sports, Indian culture, Value based education, English language training and various other activities. These things will certainly help students grow individually as a great citizen of the modern world.

## FACILITIES

### PLAY - GARDEN

Lots of play equipment create this beautiful play garden. Children instinctively get attracted towards play. They fully enjoy learning outside the four walls. We have created play garden with scientific equipments, which have exercise and entertainment values. Schooling child becomes joyful while playing with toys.

The following equipments are made available in the garden.

1. Two seater swing.
2. All in one.
5. Slides
3. Family Swing.
4. Sea - saw.

### AUDIO-VISUAL ROOM / SMART CLASS

It is being used to hone the language skills, and learn the basics of Computer, Science, Maths, Projects, General Knowledge and so on. Cd's are used to reach textual contents and thereby improve the understanding level of children. Children realize that one picture is equal to thousand words. We have A.V. facility at Shantiniketan. We also have Edurite run smart Class.

### COMPUTER LAB

There is no substitute for computer education. We maintain 1:1 ratio (One Computer per Student) so as to make teaching effective and create interest among children. Qualified and skillful teachers have been appointed for the purpose. Internet facility attracts pupils for global knowledge.

### MUSIC AND DANCE

Vocal and instrumental music have been introduced to provide rhyme and rhythm to learning in school. A professional teacher with "Sangeet Visharad" has been appointed for training children. Essential music instruments are made available in music room. Music - a universal language -inspires children to enjoy schooling. All children learn contemporary dancing.

### SCIENCE LAB

Essential science equipments have been bought for primary classes. Textual Cd's on science help children understand the subject better. They practice learning by doing science experiments. Lab arouses curiosity for knowledge and information. It also helps create scientific temperament among pupils.

### LIBRARY

Numerous books have been added to the Library for all classes to enhance reading habit among children. Reference books for children and teachers are made available. Reading habit can satisfy the curiosity of an intelligent child for enriching the knowledge.

### MATHS LAB

Difficulty level of Maths is higher than any other subject. Lab motivates children to know secrets of Maths and think logically. Play-way method and experiments create interest in Maths and they feel the subject easy. Lab removes fear about Maths.

## VISION

### A UNIVERSE OF OPPORTUNITIES

This is the world that doesn't exist today. But that is going to be created by the students of Shantiniketan. We dream to have every child grow up to be brilliant like the sun, have a sparkle like the star and spread fragrance around the world like a flower. Our students will carve a niche for themselves in this thickening competition. They will become the best citizens, the best Indians and the best human beings. They will create a universe of opportunities for themselves and the future generations.

## FEATURES

### BAGLESS SCHOOL

As part of our education method, we will try to reduce the burden of the bags so that they can concentrate completely on their education.

### CLEAN 'N' GREEN CAMPUS

A neat and clean campus with lot of trees and facilities creates fresh and healthy atmosphere and these things lead the students to learn effectively.

### REFRESHING CLASSROOMS

Class rooms are big enough to move freely and they are properly done with acoustics. It is a great experience to learn in such class rooms painted with flowers, animals, cartoons etc.

### EXPERIENCED TRAINED STAFF

Teachers as well as administrative staff are well qualified, experienced and dedicated. At the same time, they will be trained and guided as per the school pattern.

## PEOPLE BEHIND

### RAJESH PAWAR , SECRETARY

Mr. Rajesh Pawar is an active businessman with strong social obligation. He is an optimist and constantly trying to upgrade the school standards. He aspires to make Shantiniketan known as one of the best school. He is a visionary and business trailblazer. He is fuelled by long term dream that all children must realize their potential through good education.

Mr. Pawar is praised for his ability to deliver and show great efficiency in successfully implementing all projects that he takes on. He is well versed in being able to motivate, design and mentor his team to deliver goals.

### POONAM PAWAR, PRESIDENT

Wife of Rajesh Pawar, She is fully committed to developing Shantiniketan as a model School. She aspires to make available a firm and good ground for educating all students so that they get a great education and find a career that is fulfilling and rewarding and have a chance to live out their dreams.

Mrs. Pawar is detail-oriented with strong interpersonal Skill and is proficient educational. She possesses an enthusiastic disposition as far as the school is concerned and is always trying to improve and reinvent different school strategies.

### PUPPET SHOW

Puppet shows with modern puppets help improve basic language skills, acting and stage-friendly attitude. Children are trained in story telling ,art of narration. Children learn value education through moral lessons of the stories.

### GAMES

We have sufficient ground for sports activities such as cricket, volley ball, Kho-Kho, kabaddi, badminton, basket ball (basic skill) skating, chess, carrom yoga, meditation. Teacher train students in various games as per their choice / looking. We encourage children to take part in district, state and national level tournaments / competitions. We also train children in Teakwondo and Riffle shooting.

### CURRICULAR, EXTRA CURRICULAR AND HOBBY

- I.C. test and scholarship exam
- Government drawing exam
- Competative exams by outside reputed institutions
- Courses of music and dance
- Yaga & meditation practices for good health
- Special coaching for carom, skating and chess
- Debate in different languages
- Field visits & Study Tours
- Birthday celebration
- Programs to improve Leadership qualities,
- Communication Skills, Personality, Editorial skills Etc.
- Open forum for parents-teacher discussion.

### COUNSELOR / IN HOUSE DOCTOR

- We have a child counselor
- Medical checkup is conducted for each child.

### STUDENT TEACHER RATIO

We have an ideal students Teacher ratio of 40:1. Certainly, it helps the teachers to pay personal attention to every student as they are limited in number.

### INTERACTIVE LEARNING

Learning will be fun at Shantiniketan. They are taught with the help of simple examples from day to day life. Teachers take help of various experiments and projects to teach certain subjects.

### PRACTICAL LEARNING

We take help of stories and skits to teach certain lessons of science. This helps the students to understand the subject throughly and to remember the basic logic .

### APTITUDE BASED TEACHING

We evaluate and understand the interests of the students so that we can decide the field of their career at an early age and to nurture them accordingly.

### SCIENCE PROJECTS

Science can be learnt from the things around us. Students are made to take part in various science projects wherein they learn the basics of science with fun.

### SURPRISE TESTS

We conduct surprise tests on various subjects to keep the students updated with the knowledge.

### DRESS CODE

Attractive uniform for students and there is a separate dress code for teachers as well.
